Iris Terms

As Used in This Catalog

AMOENA: White or lightly tinted standards and colored falls, which may be blue, purple, yellow or pink.

BEARD: The conspicuous hairs borne on the center of the haft of the falls in bearded Iris.

BI-TONE: Two tones of the same color. Ordinarily the falls are darker than the standards in a bi-tone.

BLEND: A combination or mixture of two or more colors in the same parts of a flower, one color usually a shade of yellow.

HAFT: The narrow constricted part of the petals near the center of the Iris flower.

ONCOBRED: A hybrid of oncocyclus and tall bearded parentage, showing resemblances to both parents.

PLICATA: Stitched or stippled or dotted margins of color on light backgrounds. Backgrounds range in color from white through creams to dark yellow.

SELF: A flower with standards and falls of the same color.

SUBSTANCE: Thickness of the petals.

TEXTURE: Sheen or finish of the petals.

VARIEGATA: An Iris with standards of any shade of yellow (cream, buff, yellow, orange, bronze, etc.) and the falls of a darker shade or tones of brown, purple or red.

FOREWORD — PLEASE READ CAREFULLY

It is Iris time once again. With this, our sixth catalog, we wish to greet our many friends and customers and those of you whom we hope to serve in the coming years. The Iris is truly the "Queen of the flower garden, a rainbow come to earth." It is with both pride and pleasure that we offer you many new additions to our list.

Visitors to the gardens are more than welcome. Our blooming season is one of the latest, because we are located in the mountains, near the Canadian border. Peak bloom is usually reached the second week in June. You will find our gardens about thirty-six miles north of Colville, between Deep Lake and Cedar Lake. Come if you can and see nearly six acres in bloom. Iris collecting is our hobby. We are growing many of the older Iris here and many of the very latest Iris that are not listed in our catalog. In all, we have collected about 3,000 varieties.

The Iris is a hardy plant and can stand more neglect than most flowers. But it does respond to good care. The ideal location for Iris is a sunny, well-drained position. They require at least a half day of full sun and resent continued "wet feet." Iris rhizomes will grow after being out of the ground for long periods of time. The green fans may wither away and the roots dry up but the bulbs are capable of growing replacements. In fact, if an Iris is transplanted directly from one location to another, they appear to sit and sulk for quite a while before beginning growth. But if they are out of the ground for several days or longer, they appreciate their new location and are conditioned to start growth immediately. Because the embryo bloom stalk for next year's bloom is formed in the Iris rhizome about a month after blooming season is over, the later in the summer that an Iris is transplanted the more likely it is to bloom the first year.

All Iris rhizomes are not alike, some are naturally large while others are very small. The size of the rhizome has nothing to do with the size of the blossoms. Wm. Mohr's bulb is no larger than the end of a woman's thumb, yet it has very large flowers. All part onco bulbs are usually small.

OUR DIGGING AND SHIPPING SEASON WILL START THE 20TH OF JULY and will continue until the 15th of September. Please do not ask for or expect earlier shipment, because our later blooming season does not allow the Iris rhizomes to mature earlier. As far as possible, orders are filled in the order in which we receive them, unless a later date is specified. Hundreds of orders come in every week during March, April, May, June and July and it is physically impossible to fill them all the first week of the digging season. To insure as early a shipment as possible, make your selections now and place your order early.

We ship only quality rhizomes, freshly dug, clean, labeled and well packed. They are guaranteed to be true to name. Because growing conditions in your locality are beyond our control, we cannot replace any Iris lost due to winter kill. During the last four years we have shipped Iris to all 48 states and to Canada and Alaska. Our gardens are state inspected. We are a member of the American Iris Society and the British Iris Society. We like to do business with flower lovers and have found them to be a reasonable and appreciative group of people.

WE PAY THE POSTAGE. But postal rates and labor costs keep going up, so we have been asked to cooperate with other gardens by placing a thirty-five cent handling charge on all orders. As you know, it is the first pound of postage that costs the most. This fact has forced us to ask for a minimum order of \$3.50. We appreciate the way neighbors have been combining their orders to help with the postage problem.

SPECIAL BARGAINS!!!

POSTAGE BONUS—If you wish to include \$1.00 to help with postage, in addition to the basic handling charge, you may choose any \$1.50 Iris as your postage bonus.

BEGINNER'S COLLECTION—If you are a beginner in Iris collecting and would like a lot of varieties for your money, send us \$3.50 and we will choose 15, all different, large flowered, named Iris for you. This collection will be labeled and contain a wide range of colors but cannot be shipped before the end of August, when we can determine what varieties we have in surplus.

BARGAIN COLLECTION—Choose your own collection from the list of "Harder to find Iris" in the back of the catalog. You may order any of the starred (*) varieties from that list—10 for \$4 or 20 for \$7.50.

DELUXE COLLECTION—Choose your own collection! We have placed stars (*) by 62 different Iris valued at \$1.00 each in our general Iris list. You may order 10 of the starred varieties for \$8 or 20 for \$15.

BONUS IRIS—We like to be generous with extra Iris as gifts. If your order is under \$5 we will select your bonus Iris for you. On orders between \$5 and \$10, you may choose 10% of the total in free Iris. On orders of \$10 or over you may select 15% of the total in free Iris. This is not a cash discount, but a bonus of free Iris and does not apply to the above collections.

WE DO NOT ISSUE A WHOLESALE LIST.

IRIS ORIGINATIONS OF MELVINA SUITER

We are happy to be able to list in our catalog, again this year, some of the newer Iris from Melvina Suiter of Caldwell, Idaho. Mrs. Suiter is a hybridizer, who, for many years, has been going quietly about the work of creating beautiful new Iris that are outstanding for their color or color combinations, for their ruffling, lacy edges, satin texture, height, heavy substance or a combination of several of these qualities. Some of the Suiter Iris that are not listed but may be seen growing in our gardens are: Amber Blush, Buttons and Bows, Docey Do, Dusti Pink, Elfin Blue, Fairgold, Kristina, Lady Slippers, Molka Polka, Mount Borah, Rose Point and Tomeco. After the name of the Iris, we have listed the year of introduction, height, season of bloom, parentage and description.

1961 INTRODUCTIONS

- APRICOT LUSTRE** (Suiter 1961) 34" M (Apricot Sheen) X ((Beau Gay x Salmon Sheen) x (Chosen x Prairie Sunset)) x (47-72A x Pink Formal)) Intense apricot self with no haft markings and a deep red-tangerine beard. Ruffled domed standards, broad flaring falls, well branched. A glittering lustrous sheen adds sparkle to the deep color saturation. 20.00
- DOTOYHY PATCH** (Suiter 1961) 36" E-M (Cahokia c Sun Lakes) X Lady Ilsa. Here is a beautiful blue, not deep but bright and as near true blue as I have seen. The beard is a creamy white. Standards are well domed, falls flare broadly. It is well branched and very floriferous. 10.00

OTHER SUITER IRIS

- AMBER ROSE** (Suiter 1956) 36" E-M (Apricot Glory x Salmon Sheen) A gorgeous smoky rose beige self. Always a mass of blooms. 2.50
- APRICOT FLARE** (Suiter 1958) 34" E-M ((Midwest Gem x Daybreak) X Salmon Sheen) An apricot self with tangerine-orange beard. There is a lighter area at the tip of the beard and deeper apricot hafts. Flaring, horizontal falls. 4.00
- APRICOT SHEEN** (Suiter 1956) 36" E-M (Apricot Glory x Salmon Sheen) A huge smooth apricot self, sprinkled with gold dust. It simply glows. 1.50
- CAMEO PORTRAIT** (Suiter 1952) 38" M (Muhlestein 462F X Pink Formal) Tailored pink with white cameo like markings. No other pink quite like it. Very pink buds. 1.00
- CUTE TOMATO** (Suiter 1959) 29" E-M (Salmon Sheen x Beau Gay) X (Hall 44-55 x Pink Formal) Creamy white self with wire edge of gold on both standards and falls. Heavy red beard. Of interest to median breeders. 7.50
- DUSTY FRILLS** (Suiter 1956) 36" E-M-L (Dreamcastle x Rose Frills) X (Midwest Gem x Chantilly) x (Pink Formal Seedling) Heavily laced, rich cream self, haft flushed golden brown. Almost guaranteed to put lacy edges on seedlings. 2.50
- FOREVER SPRING** (Suiter 1957) 38" E-M-L (Snow Flurry x Muhlestein 47-72A x Pink Formal) x (Golden Eagle x Buffawn) x (Muhlestein 47-72A x Pink Formal) Ruffled creamy white self, smooth gold haft and beard. Good parent for pinks, pastels and whites with red beards. 2.50
- GOLD FRILLS** (Suiter 1955) 38" M (Golden Spike x 42-10) X Chantilly. A beautifully frilled and laced edged Iris. Cream standards, falls edged in gold lace, with white background. 1.00

- GOLD RIM** (Suiter 1952) 38" E-M-L (Midwest Gem x Chantilly) x (Muhlestein 47-72 x Pink Formal) Standards opalescent blend of yellow, cream and chartreuse. Falls satiny white with deep gold rim. 1.00
- HONEY RUFFLES** (Suiter 1954) 30" M-L (Snow Flurry x Ola Kala) Delightfully fluted lemon self brushed white below lemon beard. Honey colored hafts, wide ruffled style arms. Withstands wind, rain and sun. 1.00
- LADY APRIL** (Suiter 1957) 34" M-L (Snow Flurry x Wabash) x (Caroline Burr) x (Snow Flurry x Wabash) x Fairday. Ruffled and fluted yellow amoena. Warm white standards and deep yellow falls with white lines around beard and chartreuse lines deep in throat. Very sturdy stalks. Late. 4.00
- LADY BLUEBEARD** (Suiter 1955) 36" E-M-L (Snow Flurry x Sun Lakes) Ruffled blue white with heavy blue beard. Long bloomer of good height, well branched stalks and many flowers. 4.00
- LAST SNOW** (Suiter 1953) 48" VL (Blue Champagne x Sylvia Murray) Ruffled white with a white beard. 1.00
- MARY SUE** (Suiter 1958) 36" M-L (Midwest Gem x Daybreak) x (Salmon Sheen) x (Mary Randall) Flaring white with bright tangerine beard. 2.50
- ORANGE CRUSH** (Suiter 1959) M-VL 38" (((Midwest Gem x Chantilly) x (Gold Ruffles))) x (Salmon Sheen))) x ((Chosen x P. Sunset) x (Tell's 47-72A x Pink Formal)) Vivid orange of large size that will attract garden visitors like a magnet. Named because its color was so near to Orange Crush pop. 10.00
- ORANGE FRILLS** (Suiter 1954) M-L 36" (Gold Ruffles x Chantilly) x (Hall's 44-55 x Pink Formal) Smooth textured, orange apricot self with a white area at the tip of the heavy red-orange beard. Entire flower chantilly lace edged and very ruffled. Won HM award in 1954. 3.50
- ORIENTAL PRINCE** (Suiter 1952) 36" M (Siegfried x Sunburst) x (Tiffanja) x (Rare Marble) Standards gold, falls white edged gold, heavy brown beard. Unusual, brown thumbprint on haft and flaring falls. 1.00

LIST OF THE OLDER AND HARDER TO FIND IRIS

During the years, we have collected a great many of the older Iris, that are being dropped from other catalogs. They were the outstanding Iris of their day and we feel that their charm should not be lost to the world. We cannot maintain a large supply of each and every one of them because of the space and labor involved. But while they last, you may order any of the following for 50 cents each. Or you may order any 10 of the starred * varieties for \$4.00 or 20 of the starred varieties for \$7.50. Smaller quantities or unstarred varieties are 50 cents each. We would appreciate a few second choices. After the names we have listed the year of introduction and the general color class.
